

r17.3.6 Changelog

+-----+
| r17.3.6 Release - 70419 |
+-----+

Release day - 12th August 2020

Bug

- `m_file->codec()` error on actor while transferring content
- Catch v1 tests sometimes contain mal-formed XML "`</>`"
- Access Violation upon launching a show that contains a specific piece of media
- CTD in test "auth dynamic license allocation" due to empty vector access
- [auth] tests sometimes fail due to external circumstances
- Wrong output may be identified as GUI when holding feed outputs
- Fix BlobDetector corpus data sync if TEMP folder contains whitespace

Story

- Improve slow [auth] [benchmark] tests, so they don't take so much time on CI agents
