

r25.0.1 Changelog

+-----+
| r25.0.1 Release - 160825
+-----+

Release day 7th June 2023

Fixes

- DSOF-23423 - Fixed an issue where placeholder images appear on output for the first frame after a patched videoin becomes active
- DSOF-23692 - - Fixed an issue with IPVFC with no SFP, sometimes launched d3 with a blank GUI
- DSOF-23783 - Fixed an issue where VariableVideoPlayer: "Invalid frame calculated"/ "start != end" notification showed on sharp speed changes
- DSOF-23983 - Fixed an issue where layers with a video keyframe that fell before their start were not prefetched properly
- DSOF-24277 - Fixed an issue where UDP Camera Switching caused frame drops and dirty switches in a session
- DSOF-24376 - Fixed an issue where the background flashed when switching Video layer media via DMX
- DSOF-24288 - Fixed a performance hit caused by unnecessary domain copies
