

## r26.3.1 Changelog

+-----+  
| r26.3.1 Release - 175636  
+-----+

Release day December 13th 2023

### Fixes

- DSOF-24939 - Fixed an Access Violation when selecting the tracker delay calibration thumbnail
- DSOF-25649 - Video mode Inframe - Fixed an issue where a sockpuppet video layer playing audio caused d3 performance to drop
- DSOF-25869 - Fixed an issue where transparent screens had a black background in non-UV regions in an upgraded project
- DSOF-25898 - Fixed an issue when using 2.5d where an artifact was present in parsed depth maps containing narrow non-alpha columns
- DSOF-25926 - Fixed an issue where the GUI was black when starting Designer on a server when Parsec Virtual Display Adapter is installed
